Arthur Van Kwikenborne

I'm currently studying Cybersecurity & Infrastructure with the goal of becoming a cloud engineer. I have hands-on experience with cloud platforms, automation, and a solid foundation of containerization and orchestration. I'm currently looking for an internship where I can grow within the field and take on practical challenges.

Work experience

Student Job | Bartender

[Cultuurcafé Waregem, Waregem](#)

August 2025

Current

In addition to my studies, I work as a bar and service employee, where I further develop my communication skills.

Education

Cybersecurity & Infrastructure

[University of Applied Sciences, Kortrijk](#)

September 2023

July 2026

Growth objectives

My goals ...

for the coming year

- Finding a suitable internship where I can further develop as a person and as a cloud engineer
- Obtain additional certificates to further expand my knowledge and expertise

long-term

- Gain international experience by collaborating with various companies and organizations worldwide
- Participate in challenging projects
